

Master of Science in Instructional Technology (MSIT)
Concentration Declaration Form

Name _____ ID # _____

I have been advised about three concentrations for the MSIT program in Instructional Systems and Workforce Development.

I understand that I can choose one concentration and must follow the requirements and guidelines for that concentration. I realize that required course for one concentration cannot be substituted for required courses in another concentration.

After discussion with my adviser and comparing the requirements for the program, I select to specify in:

- Instructional Design
- Distance Education
- Multimedia
